EXECUTIVE SUMMARY

Motivated Computer Science Engineering student specializing in AI & Data Science with hands-on experience in Machine Learning, Data Analysis, and Web Development. Proficient in Python, APIs, and modern technologies. Strong problem-solving and analytical skills with practical project experience. Seeking an entry-level opportunity to apply technical knowledge and grow in a dynamic environment

TECHNICAL SKILLS

- Programming:** Python, C, C++, JavaScript, SQL
- Machine Learning:** Supervised Learning, Data Preprocessing, Feature Engineering, Model Evaluation
- Data Analyst:** SQL, Python(Pandas, NumPy), Excel, Power BI (Intermediator)
- Web Development:** HTML, CSS, JavaScript, Flask, Responsive Web Design, JSON Data Handling
- Tools & Platforms:** VS Code, Jupyter Notebook, Google Colab, Git, GitHub, MySQL, SQLite, Linux, Docker (Basic)

PROFESSIONAL EXPERIENCE

- Machine Learning Intern | Shiash Info** Aug 2024 – Nov 2024
- Built an image classification model using supervised learning techniques.
 - Performed data preprocessing, feature extraction, and model evaluation using Python and scikit-learn.
- AI Intern | Plasmid** Mar 2024 – May 2024
- Developed a spam news detection system using machine learning algorithms.
 - Applied text preprocessing and classification techniques to improve prediction accuracy.
- Web Development Intern | HDLC** Jun 2025 – Jul 2025
- Designed and developed a responsive portfolio website using HTML, CSS, and JavaScript.
 - Implemented web forms and improved user interface usability.

PROJECTS

- Tourist Budget Planner** Jan 2025 – May 2025
- Technologies: Python, Tkinter, JSON*
- Designed and implemented an interactive desktop application to suggest travel destinations based on user budget and preference.
 - Integrated Tkinter GUI with JSON data handling for efficient storage and retrieval of trip details.

- FARM-AI: Smart Agriculture System** Jul 2025 – Nov 2025
- Technologies: Python, Machine Learning, Web Technologies*
- Developed an AI-based agriculture recommendation system using soil type, weather conditions, location, and land area.
 - Applied machine learning techniques to improve crop recommendation, yield prediction, and fertilizer suggestions.
 - Built a responsive web application with text and voice support to enhance accessibility for farmers.

- PathGuide: Career & Government Exam Navigation System** Nov 2025 – Apr 2026
- Technologies: Python, Web Technologies, UI/UX Design*
- Developed a smart career guidance system to recommend personalized career paths based on user interests and skills.
 - Integrated information and preparation guidance for Tamil Nadu Government Exams, including eligibility, syllabus, and roadmap.
 - Built a responsive and user-friendly web application with structured navigation for effective career planning.

EDUCATION

Hindustan University, Chennai | B.Tech - CSE(Artificial Intelligence & Data Science) | 2023 - 2027 | CGPA: 8.64
Seventh-Day Adventist Matric Hr. Sec. School, Chengalpattu | Computer Science | Class of 2023

CERTIFICATES

- AI and ML Workshop – AiiTE Academy
- Digital Marketing – TechNoHack
- Networking Basics– Cisco
- Cybersecurity – Cisco
- Internship Commom Aptitube Test – iCAT
- Data Analytics – MS Excel – Microsoft
- Artificial Intelligence & Data Analytics – NoviTech Boot Camp
- Hackathons: INTELLITHON'25 (24-Hour National Hackathon), NEURATHON'26 (30-Hour Non-Stop Innovation).
